SOBRE NÓS

ABOUT US

A CROSSPRO, fundada em 2005, é uma empresa que se dedica ao fabrico de proteções e acessórios para o segmento de veículos de 2 e 4 rodas.

A paixão pela modalidade, a noção das exigências pela prática do desporto e o bom conhecimento de mecânica dos seus fundadores posicionaram a CROSSPRO neste segmento de mercado, marca que rapidamente ganha na Europa reconhecimento e reputação, fruto do trabalho e especial cuidado com a qualidade obtida na produção e desenvolvimento dos seus produtos.

A constante procura por novas e inovadoras soluções permitiram expandir para outros mercados e atualmente assegurar a presença da marca a nível mundial.

Todo o processo produtivo é feito na unidade fabril com sede em Portugal e com recurso a mão de obra especializada, matéria prima da mais alta qualidade e tecnologia de ponta.

CROSSPRO, founded in 2005, is a company dedicated to the manufacture of protections and accessories for the 2 and 4 wheel vehicle segment.

The passion for motorized sport and the notion of its demands, through the practice of this sport, combined with the good mechanical knowledge of its founders, positioned CROSSPRO in this market segment. A brand that quickly gains recognition and reputation in Europe, the result of hard work and the special care taken with the quality obtained in the production and development of its products.

The constant search for new and innovative solutions made it possible to expand to other markets and currently ensure the brand's presence worldwide.

The entire production process is carried out in the factory located in Portugal, using specialized labor, the highest quality raw materials and cutting-edge technology.

SOBRE OS NOSSOS PRODUTOS

ABOUT OUR PRODUCTS

Os nossos produtos são submetidos a um rigoroso controlo de qualidade e testados em condições extremas, sendo adequados desde o utilizador convencional até ao utilizador profissional de alta competição. Garantem, portanto, uma máxima performance.

A aposta numa melhoria contínua, quer seja pela exigência das novas tendências de mercado, quer pelas necessidades dos nossos clientes, é um fator que nos distingue.

Temos como preocupação as necessidades dos nossos clientes, estando sempre atentos ao seu feedback, procurando antecipar e ajustar a nossa gama de produtos.

A mudança de instalações em 2017, agora com 5000m² de área coberta, aliada a um forte investimento estratégico em nova maquinaria, tais como corte a laser, célula de solda robotizada, máquina de lixar por planos, unidade de pintura eletrostática, máquina de dobrar tubo CNC, entre outras, bem como o know-how adquirido, projetou a entrada da CROSSPRO para novas áreas de negócio, com novas parcerias e novos desafios, alargando as suas valências no sector metalomecânico para variados tipos de produtos.

CROSSPRO é sinónimo de qualidade e fiabilidade.

Our products are subjected to strict quality control and tested under extreme conditions, being suitable from the conventional user to the professional user of high competition. Therefore, they guarantee maximum performance.

The commitment to continuous improvement, whether due to the demands of new market trends or the needs of our customers, is a factor that distinguishes us.

Our main concern is the customer's needs, we are always in communication and attentive to their feedback, seeking to anticipate and adjust our product range.

The change of facilities in 2017, now with 5000m² of covered area, combined with a strong strategic investment in new machinery, such as a laser cutting unit, robotic welding cell unit, flat sanding machine, electrostatic painting unit, CNC tube bending, among others, as well as the team's know-how, projected CROSSPRO's entry into new business areas, with new partnerships and new challenges, expanding its valences in the metalworking sector to various types of products.

CROSSPRO is, for all these reasons, synonymous of Quality and Reliability.

EQUIP YOUR DREAM MOTORCYCLE !

A CROSSPRO, sempre atenta às tendências, acompanha o crescimento do segmento Dual Sports e desenvolve Proteções de Carenagem completas e Proteções de Motor, duas das zonas mais críticas da moto a ter em conta. São produzidas com matérias-primas da mais alta qualidade que marcam a diferença, oferecem vantagens como:

- Peso reduzido, maior leveza logo menos consumo e uma maior performance;
- Menos desgaste da moto ao proteger zonas sensíveis;
- Personalização, com oferta de um leque variado de cores disponíveis para ir de encontro ao gosto do cliente;
- As matérias-primas atendem à sensibilidade para as questões ambientais por serem reutilizáveis.

Além das proteções referidas, a CROSSPRO desenvolveu uma linha de acessórios que combinam o alumínio com o aço inoxidável, para zonas mais expostas e sensíveis da moto, com um design simples e inovador, sempre com a preocupação de garantir uma máxima proteção.

CROSSPRO, always focused on market trends, observes the growth of the Dual Sports segment and has developed, among others, full fairing protections and engine protections, two of the most critical areas of the bike to take into account. They are produced in aluminium, a high-resistance raw material that make a difference, offer advantages such as:

- Reduced weight, greater lightness, therefore less consumption and greater performance;
- Less motorcycle wear by protecting sensitive areas;
- Personalization, offering a wide range of colors available, meeting the customer's taste;
- Aluminium itself, which meets sensitivity to environmental.

CROSSPRO has developed and has available a line of accessories that combine aluminum with stainless steel, for other more exposed and sensitive areas of the motorcycle, with a simple and innovative design, always with the aim of guaranteeing maximum protection.

HARD LINK DTC ENGINE GUARD

2CP225_

Proteções de motor DTC com proteção de link reforçado

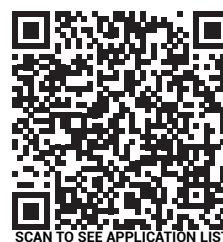

A máxima exigência dos nossos clientes, as novas tendências e a filosofia de melhoria contínua, naturalmente levaram ao upgrade das proteções de DTC desenvolvidas. A nova protecção, além do reforço da zona do link, tem um reforço nas zonas do quadro, aumentando a protecção da sua moto.

- Extra protecção na zona de link, agora com 12mm que reforçará a protecção desta zona sensível da sua moto
- De fácil aplicação, pode remover ou colocar ajustando a protecção à exigência de cada corrida
- Protecção ajustada e adequada a corridas com mais obstáculos
- Removível e de fácil substituição

DTC HARD engine guard with link reinforcement protection

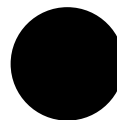

The maximum demand of our customers, the new trends and the philosophy of continuous improvement, naturally led to the upgrade of the developed DTC protections. The new protection, in addition to strengthening the link area, has a reinforcement in the areas of the frame, increasing the protection of your bike.

- Extra protection for the link, now with 12mm that will reinforce the protection in this sensible part of your bike
- Easy to apply, you can remove or putt adjusting the skidplate to the "hardness" of each race
- Protection adjusted to races with more obstacles
- Removable and easily replaceable

Protecções de radiador em alumínio

- As protecções de radiador Light CrossPro foram desenvolvidas para proteger o sistema de refrigeração (a parte mais frágil e importante da sua moto). Não obstrui o fluxo de ar necessário para o devido arrefecimento.
- Desenhado como uma espécie de "Concha", a protecção de radiador assegura um perímetro de segurança, sem que os seus pontos de fixação estejam em contacto directo com o radiador. A fixação é efectuada ao quadro da moto.
- Com este perímetro de segurança, os impactos nunca serão transmitidos directamente ao radiador.
- Produzidas em alumínio da mais alta qualidade, com espessura de 3mm.
- Disponível em diferentes cores.

Aluminum radiator guard

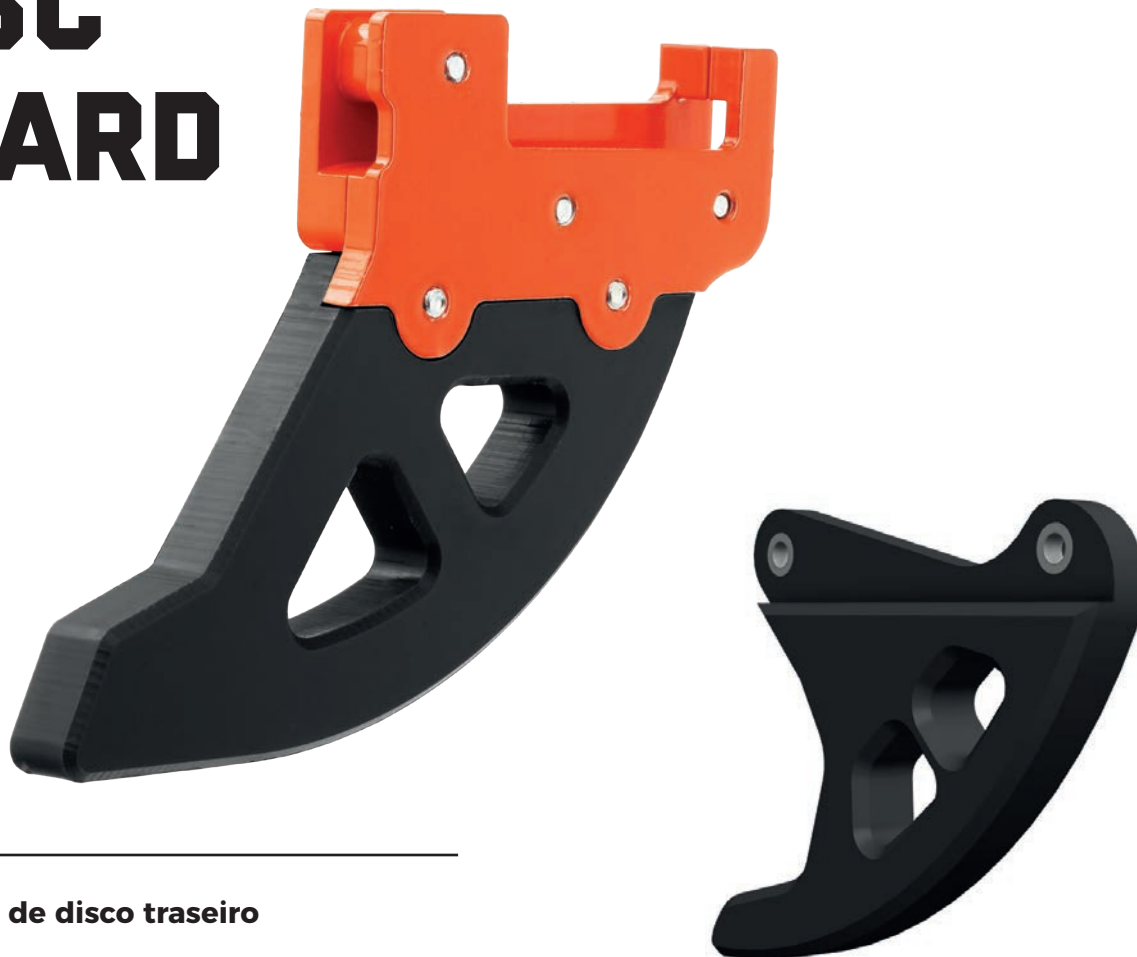

- CrossPro radiator guards have been developed to protect the cooling system (the most fragile and important part of the bike). It does not obstruct the air flow necessary for proper cooling.
- Designed as a "radiator roll cage", it ensures a secure perimeter, preventing its mounting points from coming into direct contact with the radiator.
- It is fixed to the bike's frame.
- With this safety perimeter in place, impacts will never reach the radiator directly.
- Made from the highest quality aluminum, 3mm thick.
- Available in different colors.

DTC REAR BRAKE DISC GUARD

2CP092_

COMBINAÇÕES
DE CORES**

O pára-choques frontal CROSSPRO CR04 dá nas vistas com o seu design inovador e arrojado e é diferente de tudo alguma vez visto. Fabricado em alumínio de alta qualidade e com recurso a processos automatizados de corte tubo a laser, maquinaria e curvatura em CNC.

O seu visual, com uma leve placa frontal em DTC da melhor qualidade, aliado a 60 combinações diferentes de cores (entre a parte tubular e a placa frontal) está bem integrado ao projeto QUAD. Sem vibrações.

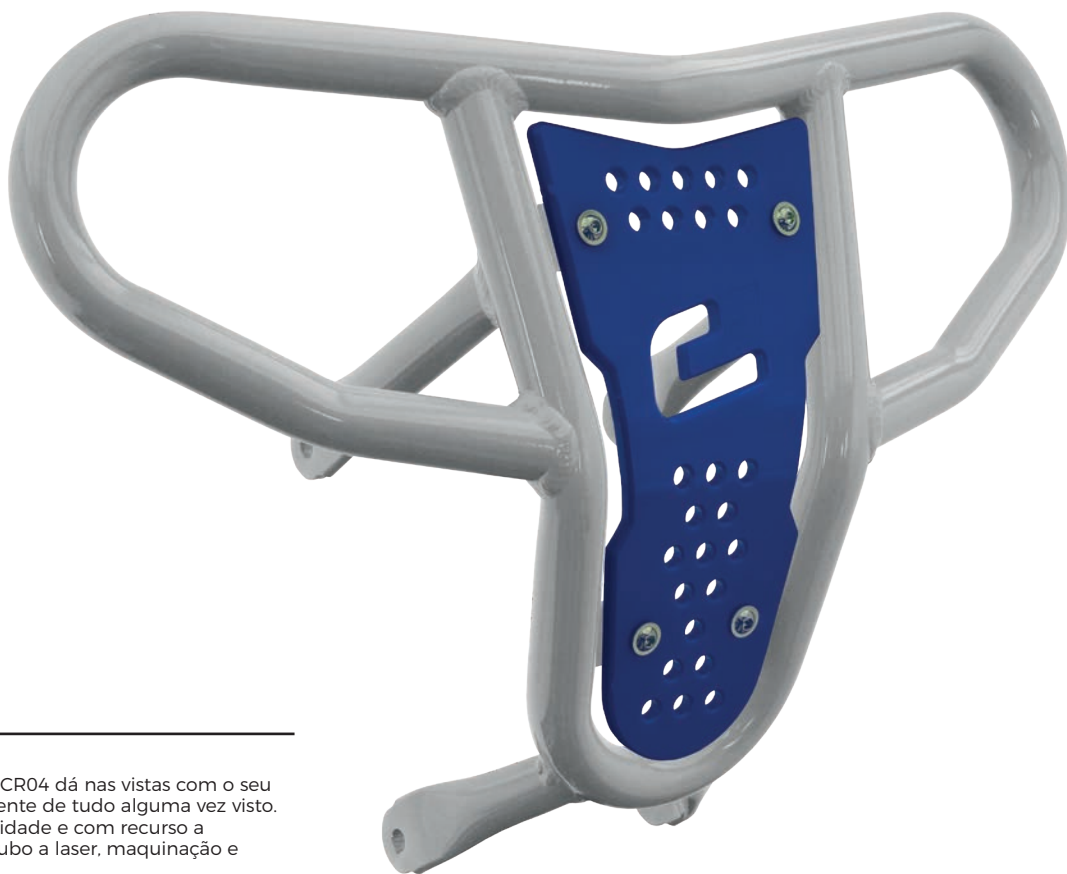

Composição:

- Alumínio alta resistência
- Tubo Ø 25 x 3mm
- Placa Frontal DTC 6mm
- Dimensões Máximas: 51 cm x 29cm
- Pontos fixação: 4
- Kit montagem incluído, montagem fácil sem necessidade de qualquer modificação.

The CROSSPRO CR04 front bumper stands out with its bold and innovative design, unlike anything ever seen. Manufactured in high quality aluminum and using automated processes of laser tube cutting, CNC machining and bending. Its look, with a light front plate in the best quality DTC, combined with 60 different color combinations (between the tubular part and the front plate) is well integrated into the QUAD design. No vibrations.

Composição:

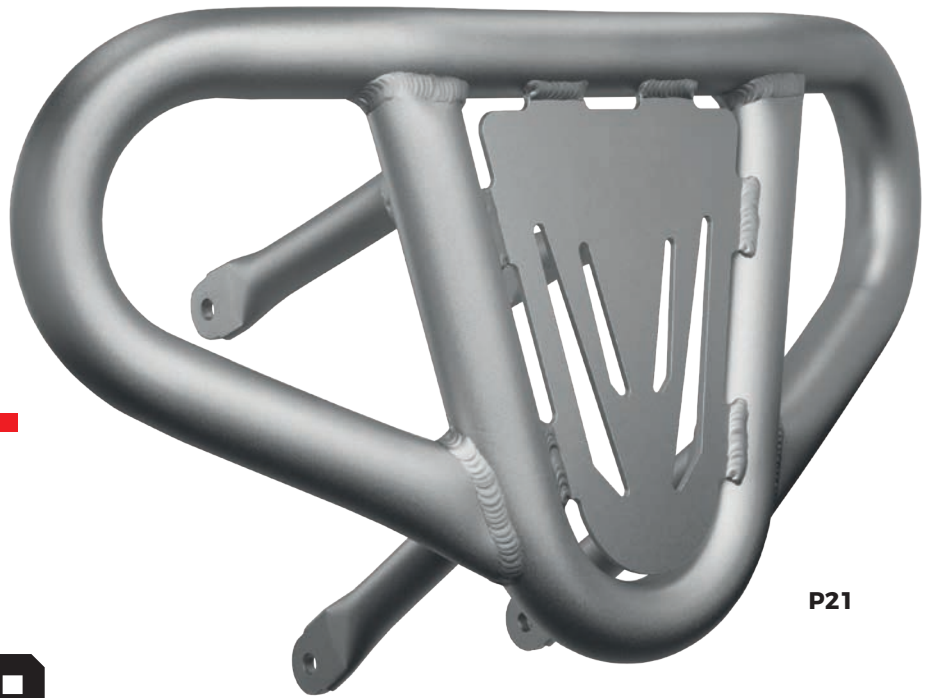

- High Strength Aluminum
- Tube Ø 25 x 3mm
- Front Plate DTC 6mm
- Maximum Dimensions: 51 cm x 29cm
- Attachment points: 4
- Mounting kit included, easy assembly without any modification required.

SPORTS QUAD NERF- BARES

NERF-BAR HARD RACING 2.0

2CP233_

NEW

MORE RESISTANT, WITH HEAT TREATMENT

Uma nova geometria permitiu baixar em cerca de 15 mm o Nerf Bar em relação aos outros modelos Crosspro. Estribos c/ 3 inclinações possíveis removíveis e de fácil substituição. Baixo Peso. Ultra resistente Usado por profissionais alta competição

Composição:

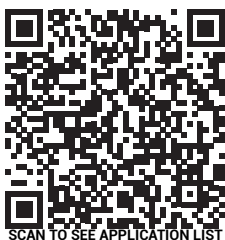

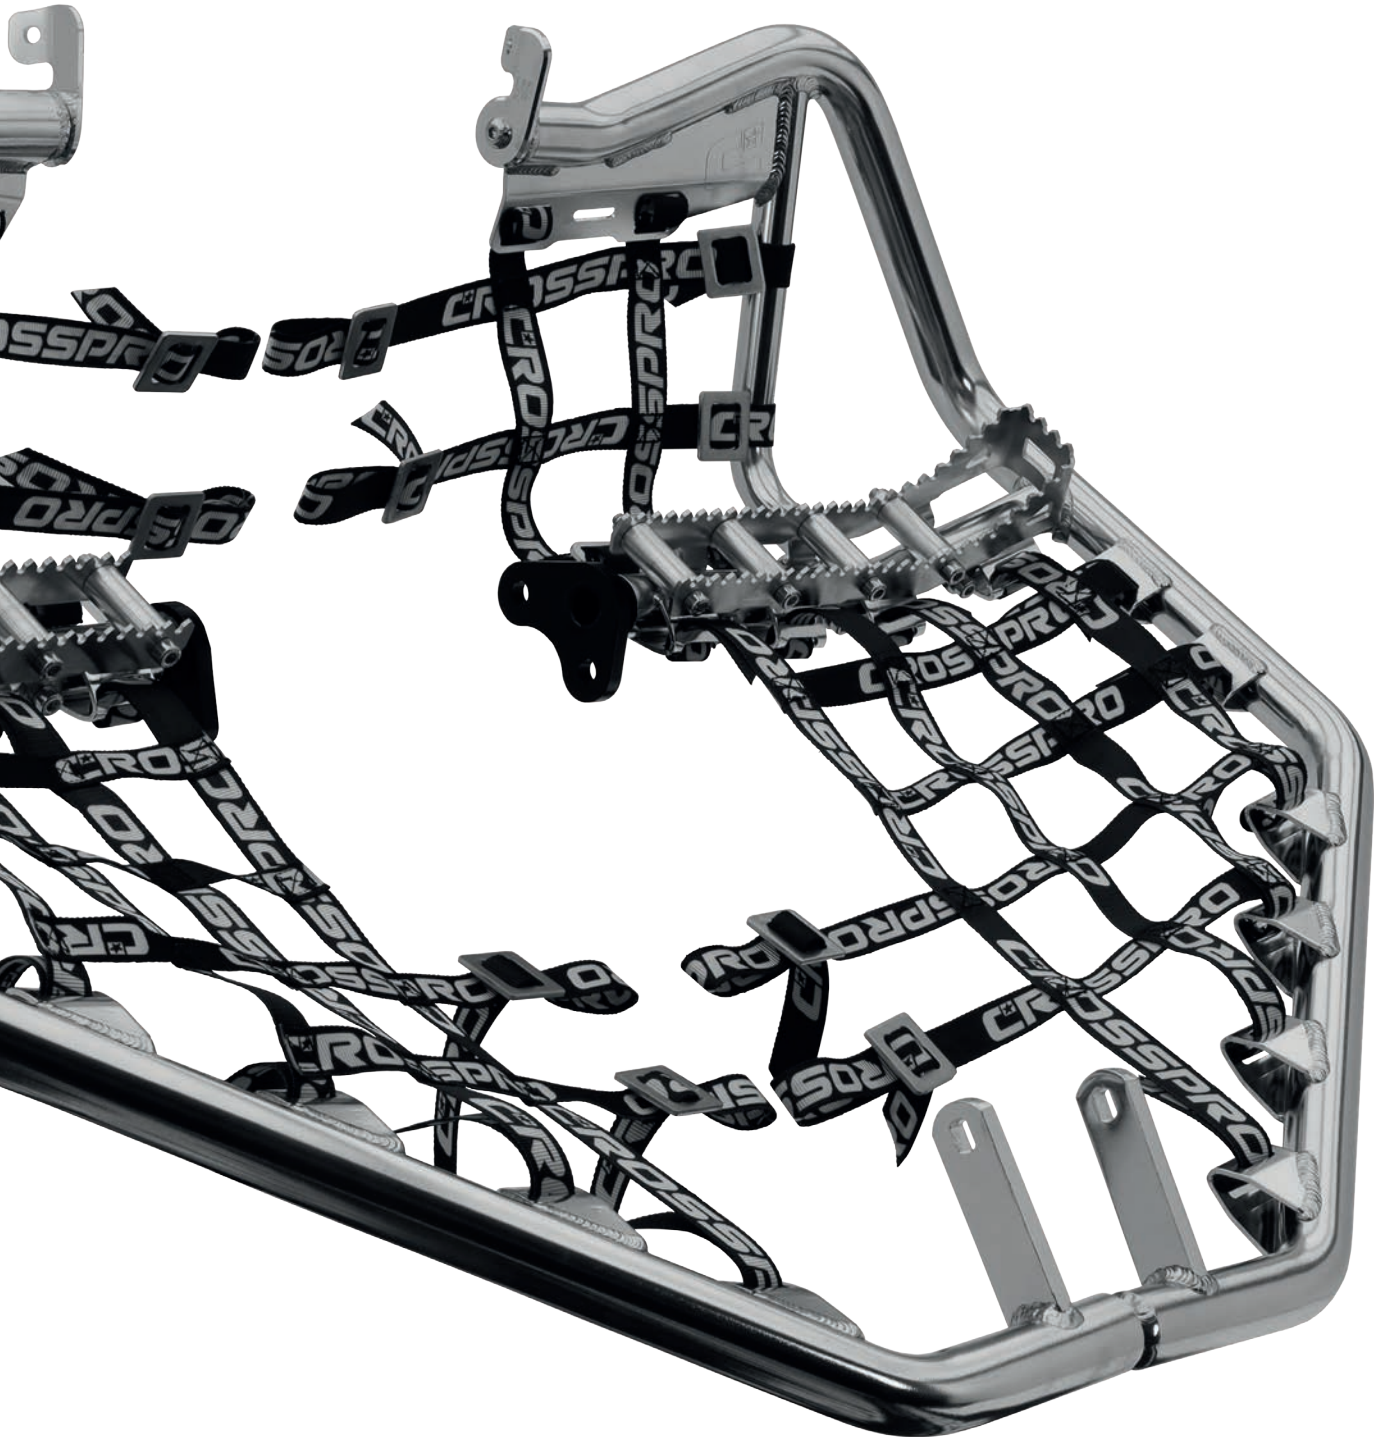

- Alumínio Liga 6061, Inox 304
- Tubo Ø 35 mm
- Estribos em Inox 304 com 3 mm de espessura

A new geometry made it possible to lower the Nerf Bar by about 15 mm compared to other Crosspro models. Foot Pegs with 3 possible inclinations, removable and easy to replace.

Light Weight, Ultra Durable
Used by high competition professionals

Composição:

- Aluminum Alloy 6061, Stainless Steel 304
 - Tube Ø 35 mm
 - 304 stainless foot pegs, 3 mm thick

FRANCO SPORT

PROCESSO DE PINTURA ELETROSTÁTICA

ELECTROSTATIC PAINT PROCESS

A pintura é realizada por lacagem, que consiste num processo de pintura eletrostático executado com tintas em pó.

Este processo, bem como o tratamento a que as peças são sujeitas, reforça a proteção anticorrosiva e maximiza a aderência e duração da tinta.

No nosso processo de lacagem dispomos de 9 cores diferentes para as suas proteções.

Um processo simples, eficaz e resistente.

The painting is carried out by the lacquering method, which consists of an electrostatic painting process performed with powder paints.

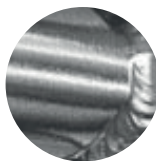

This process, together with a final treatment technique applied to the pieces, reinforces the anti-corrosion protection and maximizes the paint adhesion and duration.

With this lacquering process we have 9 different colors for the protections.

A simple, effective and resistant process.
