

DUAL SPORTS

2023

v2323 0110

■ ABOUT US

A CROSSPRO, fundada em 2005, é uma empresa que se dedica ao fabrico de proteções e acessórios para o segmento de veículos de 2 e 4 rodas.

A paixão pela modalidade, a noção das exigências pela prática do desporto e o bom conhecimento de mecânica dos seus fundadores posicionaram a CROSSPRO neste segmento de mercado, marca que rapidamente ganha na Europa reconhecimento e reputação, fruto do trabalho e especial cuidado com a qualidade obtida na produção e desenvolvimento dos seus produtos. A constante procura por novas e inovadoras soluções permitiram expandir para outros mercados e atualmente assegurar a presença da marca a nível mundial.

Todo o processo produtivo é feito na unidade fabril com sede em Portugal e com recurso a mão de obra especializada, matéria prima da mais alta qualidade e tecnologia de ponta.

CROSSPRO, founded in 2005, is a company dedicated to the manufacture of protections and accessories for the 2 and 4 wheel vehicle segment.

The passion for motorized sport and the notion of its demands, through the practice of this sport, combined with the good mechanical knowledge of its founders, positioned CROSSPRO in this market segment. A brand that quickly gains recognition and reputation in Europe, the result of hard work and the special care taken with the quality obtained in the production and development of its products.

The constant search for new and innovative solutions made it possible to expand to other markets and currently ensure the brand's presence worldwide.

The entire production process is carried out in the factory located in

Portugal, using specialized labor, the highest quality raw materials and cutting-edge technology.

■ ABOUT OUR PRODUCTS

Os nossos produtos são submetidos a um rigoroso controlo de qualidade e testados em condições extremas, sendo adequados desde o utilizador convencional até ao utilizador profissional de alta competição. Garantem, portanto, uma máxima performance.

A aposta numa melhoria contínua, quer seja pela exigência das novas tendências de mercado, quer pelas necessidades dos nossos clientes, é um fator que nos distingue.

Temos como preocupação as necessidades dos nossos clientes, estando sempre atentos ao seu *feedback*, procurando antecipar e ajustar a nossa gama de produtos.

A mudança de instalações em 2017, agora com 5000m2 de área coberta, aliada a um forte investimento estratégico em nova maquinaria, tais como corte a laser, célula de solda robotizada, máquina de lixar por planos, unidade de pintura eletrostática, máquina de dobrar tubo CNC, entre outras, bem como o *know-how* adquirido, projetou a entrada da CROSSPRO para novas áreas de negócio, com novas parcerias e novos desafios, alargando as suas valências no sector metalomecânico para variados tipos de produtos.

Our products are subjected to strict quality control and tested under extreme conditions, being suitable from the conventional user to the professional user of high competition. Therefore, they guarantee maximum performance.

The commitment to continuous improvement, whether due to the demands of new market trends or the needs of our customers, is a factor that distinguishes us.

Our main concern is the customer's needs, we are always in communication and attentive to their feedback, seeking to anticipate and adjust our product range.

The change of facilities in 2017, now with 5000m2 of covered area, combined with a strong strategic investment in new machinery, such as a laser cutting unit, robotic welding cell unit, flat sanding machine, electrostatic painting unit, CNC tube bending, among others, as well as the team's know-how, projected CROSSPRO's entry into new business areas, with new partnerships and new challenges, expanding its valences in the metalworking sector to various types of products.

CROSSPRO is, for all these reasons, synonymous of Quality and Reliability.

CROSSPRO é sinónimo de qualidade e fiabilidade.

Management System

ID 910507726

A CROSSPRO, sempre atenta às tendências, acompanha o crescimento do segmento Dual Sports e desenvolve Proteções de Carenagem completas e Proteções de Motor, duas das zonas mais críticas da moto a ter em conta. São produzidas em alumínio, matéria prima de alta resistência que marcam diferença face às fabricadas pela concorrência e oferecem vantagens como:

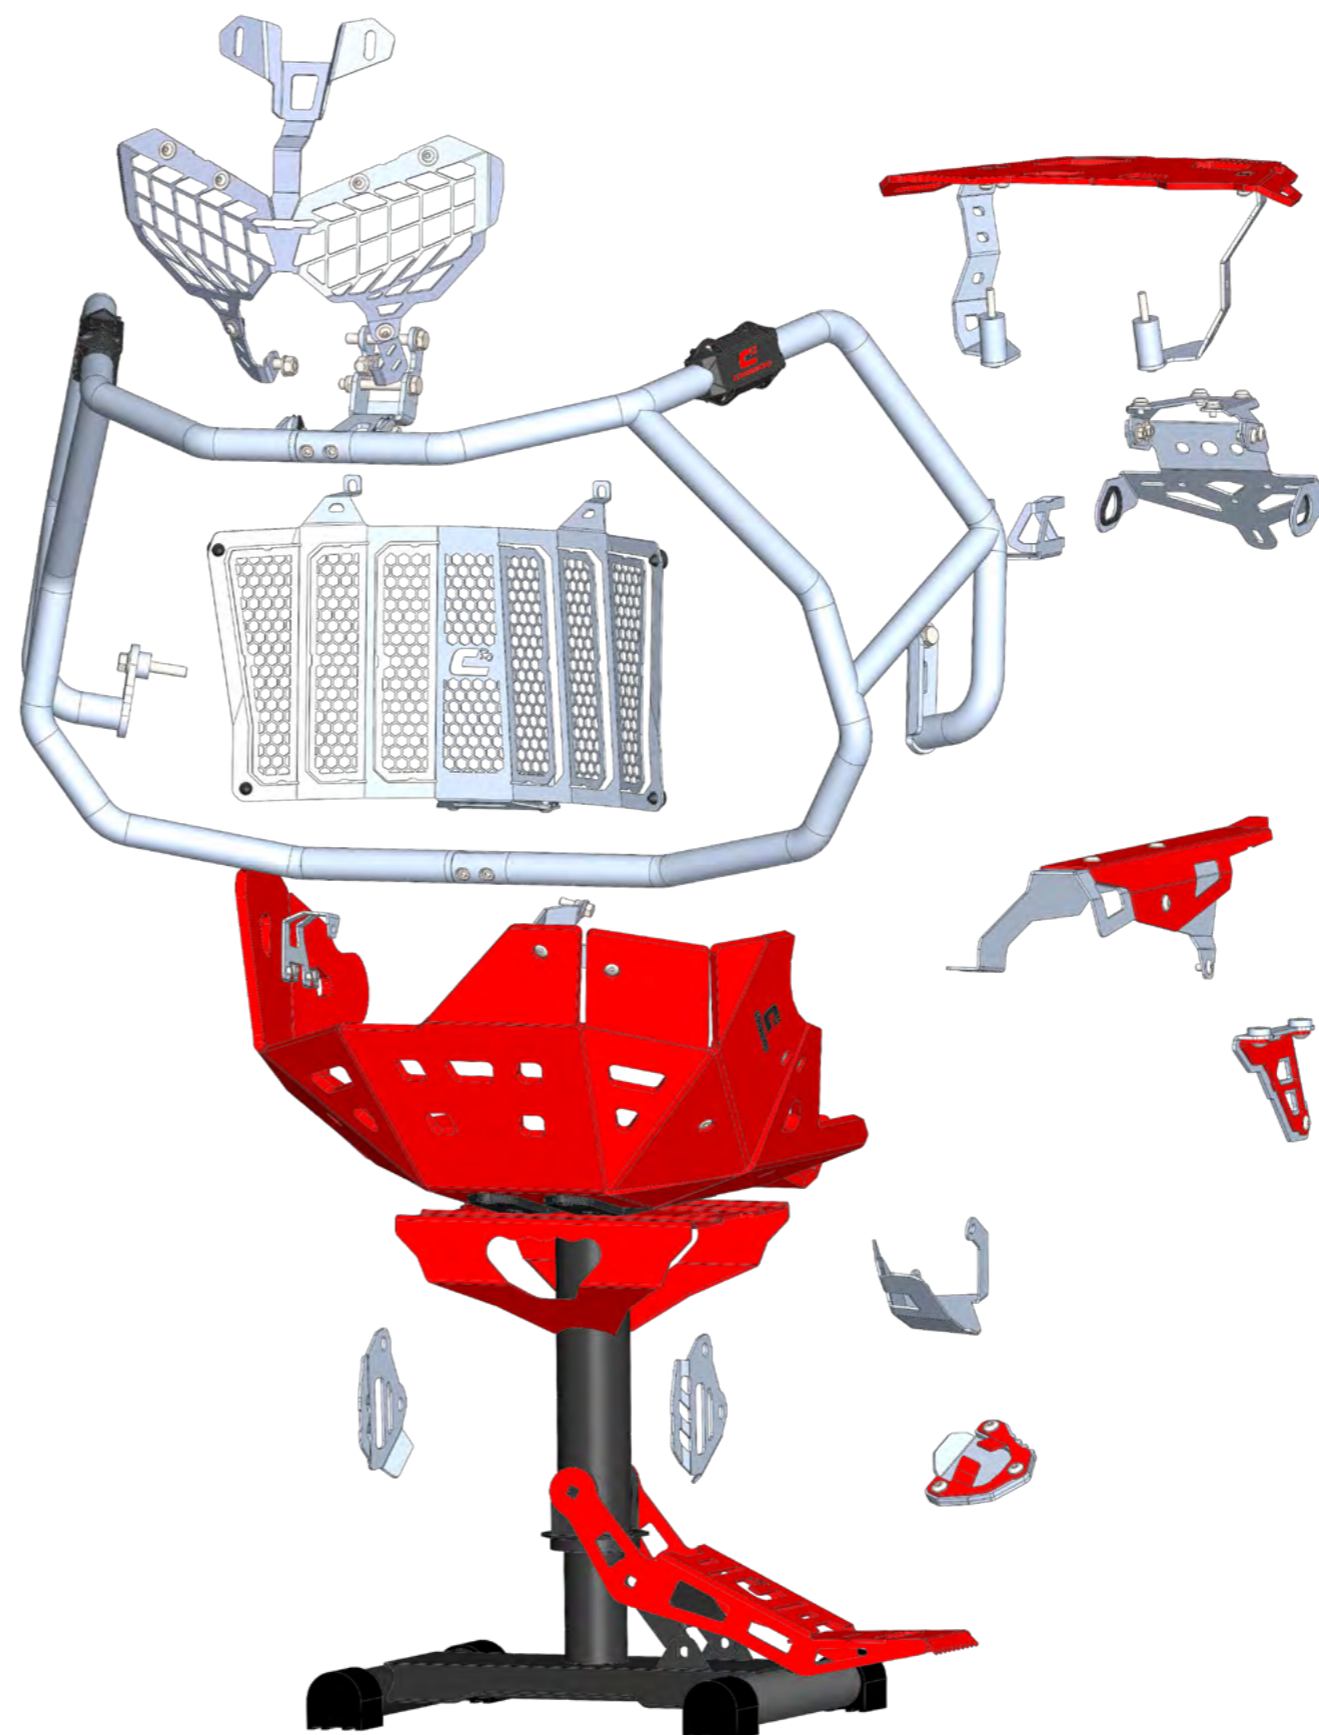

- Peso reduzido, maior leveza logo menos consumo e uma maior performance;
- Não oxida, mantém a cor e prolonga o aspeto de novo;
- Menos desgaste da moto ao proteger zonas sensíveis;
- Personalização, com oferta de um leque variado de cores disponíveis para ir de encontro ao gosto do cliente;
- O alumínio atende à sensibilidade para as questões ambientais por ser uma matéria-prima reutilizável.

Além das proteções referidas, a CROSSPRO desenvolveu uma linha de acessórios que combinam o alumínio com o aço inoxidável, para zonas mais expostas e sensíveis da moto, com um design simples e inovador, sempre com a preocupação de garantir uma máxima proteção.

CROSSPRO, always focused on market trends, observes the growth of the Dual Sports segment and has developed, among others, full fairing protections and engine protections, two of the most critical areas of the bike to take into account. They are produced in aluminium, a high-resistance raw material, they make a difference compared to those manufactured by the competition and offer advantages such as:

- Reduced weight, greater lightness, therefore less consumption and greater performance;
- Does not oxidize, keeps its color and appearance as new;
- Less motorcycle wear by protecting sensitive areas;
- Personalization, offering a wide range of colors available, meeting the customer's taste;
- Aluminium itself, which meets sensitivity to environmental concerns as it is a reusable, recyclable raw material.

In addition to the aforementioned protections, CROSSPRO has developed and has available a line of accessories that combine aluminum with stainless steel, for other more exposed and sensitive areas of the motorcycle, with a simple and innovative design, always with the aim of guaranteeing maximum protection.

**THE
BEST
SALES**

2CP197 Aluminum Crash Bar

- Aluminum protections
- Reduced weight
- Maximum Resistance
- Innovative Design
- Maximum protection to your bike
- Produced in high quality aluminum, with 25mm diameter and 3mm thickness

2CP090 Aluminum Engine Guard

Made of the highest quality aluminum, 4mm thickness. It protects your motorcycle's engine with maximum effectiveness against impacts and stone projections.

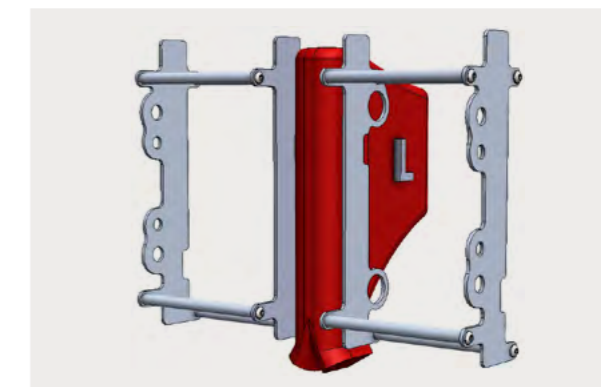

2CP207 License Plate Support

- Made of stainless steel
- Easy to install
- Simple maintenance
- High strength
- Available in multiple colors

2CP210 Radiator Aluminum Guard

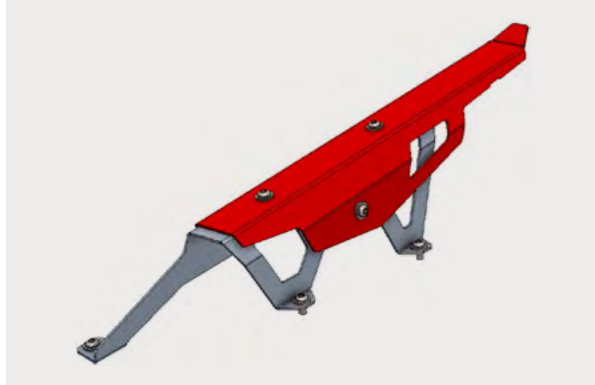

The CrossPro radiator were specially designed to protect your Cooling System, your bike's most fragile and important component - without obstructing airflow to the radiator. Designed as a "radiator roll cage", the CrossPro radiator protection secures a perimeter around the radiator, without its fixation points are in direct contact with the radiator. With this security perimeter, hard impacts won't affect your radiator. Made by best quality aluminum, with a thickness of 3mm

for the real **ADVENTURERS**

05. 2CP214 Chain Guard

We developed this protection in order to increase the security, it's more resistant than the original part, the chain guard combines stainless steel and aluminium yet is still relatively light
The mounting of the part is based on a "do it yourself" allowing a easy mounting and maintenance
This piece allows you to combine different colours

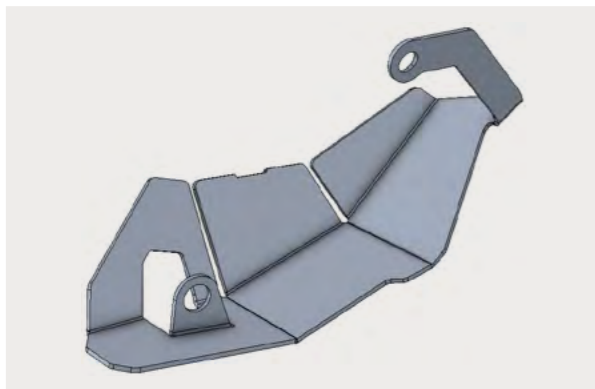

06. 2CP215 Chain Guard Fin

This lower protection it's a combination of aluminium/stainless steel, secure your chain guard preventing branches and other objects from knocking the chain of the drive sprocket.
The chain guard fin is stronger than the original plastic item!
Existing fixation points can be used, which makes this chain guard easy to mount at your home.
Available in different colours

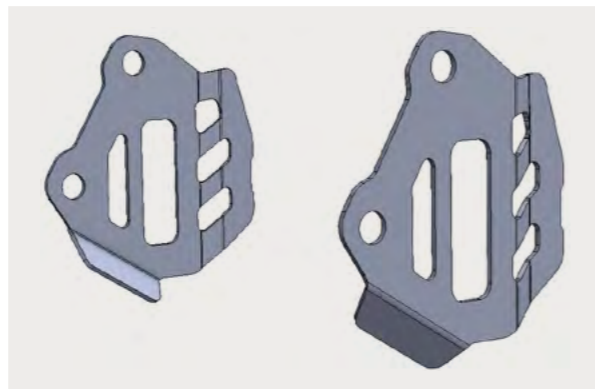

07. 2CP216 Parking Brake Guard

Protects the parking brake against damage Made in Stainless Steel
Easy to install
Rust-proof with simple maintenance
Available in different colours

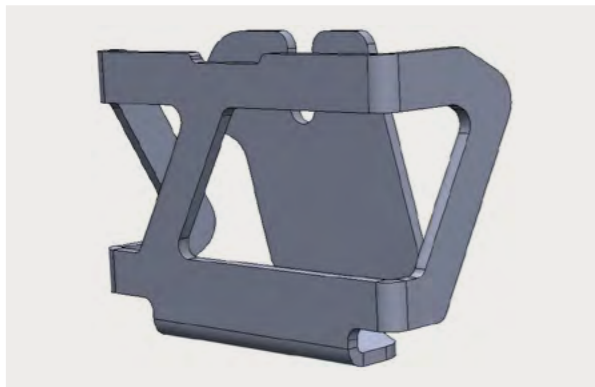

08. 2CP217 Brake Calliper Guard

Protects the callipers against damage
Made in Stainless Steel
Easy to install
Rust-proof with simple maintenance
Available in different colours

09. 2CP218 Rear Brake Fluid Reservoir Guard

Made from laser-cut stainless steel, the brake fluid reservoir guard effectively prevents damage and undesired access to the reservoir lid, yet allowing easily see the fluid level, controlling the necessary maintenance. The protection is mounted using the existing mounting point.
Available in different colours

10. 2CP219 Dual Clutch Transmission (DCT)

Protects the Dual Clutch Transmission against damage
The stainless steel protection is simple to install, rust-proof with simple maintenance

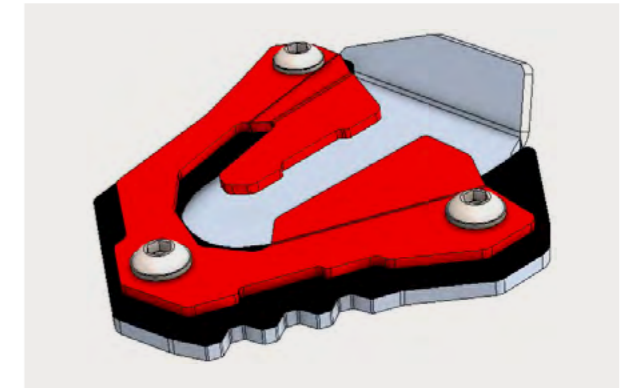

PRODUCT CATEGORY

11

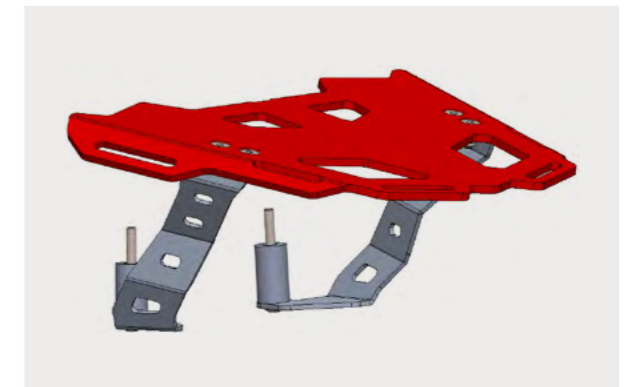

2CP220 Side Stand Base Extension

Combines stainless steel and aluminum increase the area of supporting the bike Gives more stability in different types of grounds when using the rest Easy to install Available in different colours

2CP222 Luggage Rack

Optimise the stowage of your luggage on your Africa Twin!
The luggage rack, made of 4mm thick aluminium, is precisely laser-machined and virually doubles the usable surface area of the original Honda luggage rack. The surface of your rack has great optics, the shape adapts elegantly to the motorbike's design. Numerous recesses and slots for straps offer a variety of lashing options. The wide design even offers large pieces of luggage a firm hold. The rack can be fitted quickly and easily.

2CP221 Head Light Protector

Stainless steel headlight protector was design to maximize the protection and at the same time beautify your motorcycle
Easy to install
Available in different colours

2CP227 Radiator Guard

Protects the radiator from stones being thrown up from the ground
Laser-cut stainless steel, does not affect the radiator function
The radiator cover can cause the engine to overheat under extreme conditions with high outside temperatures and an extreme engine load

2CP124 DTC Skidplate

Tested in hostile conditions, this skidplates offer the best protection for the engine and frame of your bike in hard tracks. Produced in best quality DTC with 8mm thickness without helds, they're 40% ligh comparing with aluminum. They're more resistentes to impact and causo no vibrations. Reinforced with 6mm stripes bellow to overcome easilly obstacles.
Available in different colors (Blue, Red and Black).

CROSSPRO AROUND THE WORLD

A CROSSPRO prima pela excelência e rigor na procura e desenvolvimento de novas soluções, com produtos inovadores de alta qualidade que vão ao encontro da exigência dos nossos clientes e da procura do mercado.

Antevendo sempre todas as exigências, a CROSSPRO ao longo da sua existência aumentou a sua gama de produtos e atualmente está presente em mais de 40 países .

A internacionalização foi sem dúvida um passo decisivo para exponenciar as vendas representando cerca de 95% da produção atual.

Made by CROSSPRO

CROSSPRO stands out for excellence and rigor in the research and development of new solutions, with innovative high quality products that meet the demands of our customers and the market itself.

Always anticipating all requirements, CROSSPRO during its existence has increased its range of products and is currently present in more than 40 countries all over the world.

Internationalization was undoubtedly a decisive step to increase sales, representing around 95% of current production.

■ ELECTROSTATIC PAINT PROCESS

 *Indicative weights*
Pesos indicativos

“Painting is done through lacquering, which is an electrostatic painting process performed with powder paints.”

We have 9 different colors for your guards!

-  Black
ral: 9005
-  Textured Black
ral: 9005 text
-  White
ral: 9110
-  Red
ral: 3020
-  Green
ral: 6018
-  Blue
ral: 5002
-  Yellow
ral: 1021
-  Orange
ral: 2004
-  Ice Polish Protected varnish color

A pintura é realizada por lacagem, que consiste num processo de pintura eletrostático executado com tintas em pó.

The painting is carried out by the lacquering method, which consists of an electrostatic painting process performed with powder paints.

Este processo, bem como o tratamento a que as peças são sujeitas, reforça a proteção anticorrosiva e maximiza a adesão e duração da tinta.

This process, together with a final treatment technique applied to the pieces, reinforces the anti-corrosion protection and maximizes the adhesion and duration of the paint.

No nosso processo de lacagem dispomos de 9 cores diferentes para as suas proteções.

With this lacquering process we have 9 different colors for the protections.

Um processo simples, eficaz e resistente.

A simple, effective and resistant process.
